COMMUNICATION

Box Non-Fee Amendment  
Commissioner for Patents  
Washington, DC 20231

Dear Sir:

Please consider the following remarks in combination with each previously submitted IDS filed July 17, 2002, October 8, 2002, and November 27, 2002.

**REMARKS**

The undersigned has reviewed the references cited in the Information Disclosure Statements (IDS's) filed on July 17, 2002, October 8, 2002, and November 27, 2002. While all references cited in these IDS's have some relevancy to the claims and should therefore be thoroughly reviewed by the Examiner, International Publication Number WO 00/48196 A1 (International Application Number: PCT/US00/03571) issued to Kozicki appears to be of particular significance in that it comments on "smart cards," and states "an ability to form the memory directly on a plastic card is a major advantage in these applications as this is generally not possible with other forms of semiconductor memories"
